Subject: Your contact name for Rosemont Tribal briefing paper

Elizabeth – FYI – we were going to put your name for the Rosemont Mine entry on these tribal briefing papers, since NEPA is essentially over and the 404 permit is the upcoming action. Let me know if you have any problem with this. Here is our proposed update I will send to Tribal program by tomorrow. The old one it will replace is on the attachment. Thanks -

Rosemont Copper Mine

There is a newer 1-pager, last edited in March, so it may not need as much editing as the previous version I shared. Here it is attached. Thank you all who have already replied!

Subject: Last call for updates: Tohono O'odham

Hello! I am finalizing the Tribe's ETEP, due at the end of the fiscal year, and I wanted to make sure that you had a chance to update the attached Areas of Involvement (AIL) and Regulated Facilities (RFIL) documents. They were sent by Michelle Baker in January to RIPSC, but it may have slipped through the cracks. Jose Garcia and Karly Ho already provided comments. Thank you both.

Would you please go to the link below to double check and if any edits are needed, make them directly to the SharePoint files? The draft info from the AIL and your name came from the Tribe's 1-pager (attached), or I may have added you just in case you are the right person and/or may lead me to them. For T.O., the 1-pager was last updated in October 2012. If you would like to update the 1-pager now, that would be awesome. The RA is visiting Tohono O'odham very soon (October I believe), and we will be asked to update it soon, so it would make sense to get it done now since both the 1-pager and the AIL have very similar information. I believe that the main difference is that the 1-pager has internal EPA information (for briefing the RA), and the AIL does not. If any information needs to be deleted, please feel free to do that in either/both documents. If you don't have time for the 1-pager now, no worries, the AIL and RFIL are definitely a priority.

I need to get the ETEP finalized ASAP, so if you could get me comments by next Friday August 24th, I would really appreciate it! If you aren't the contact person any longer or see anyone missing, if you could please forward this or let me know who to contact, I would also appreciate it.

If don't hear back by Friday, I will assume that no edits were needed and I will leave the information as is, or will take out very old information. If you need more time, please let me know.
